

CVEATC Riding Policy

Rules for riding bicycles, scooters, skateboards, and roller/in-line skates, etc. at the Chula Vista Elite Athlete Training Center.

The safety of all riders and members of the CVEATC community is our number one priority. Here are the rules about where and how to ride while on site.

- All riders must observe the “rules of the road” applicable to vehicles when ridden on streets or areas intended for use by motor vehicles, for example:
 - Riding on brick walking paths and other sidewalk areas near building entrances/doorways is not allowed. Please walk your bike, scooter or skateboard on these paths. (Refer to the map below for the main no-riding zones denoted by the red boundary)
 - Scooter riders must: be 18+ years and have a valid driver’s license; follow all traffic rules including stopping at stop signs; travel no more than 15 mph on CVEATC roads; and not allow passengers.
 - When riding at night, use/affix lights to your bike or scooter as required by law
 - Headphones should be avoided so you can hear what’s going on around you.
 - Yield the right-of-way to pedestrians, vehicles and other riders as you would on any public street
- No riding is allowed inside any CVEATC buildings.
- No bike or scooter may be parked indoors or placed/parked in any walking paths, near building entrances or other pedestrian traffic areas. Use designated racks where available, otherwise park in an orderly manner nearby. (Bikes and scooters may be subject to impound if found to be blocking walkways or entrances)
- No riding is allowed on the BMX tracks, on playing fields, on the track surface or any other venue at CVEATC without the express permission of staff. (e.g. BMX bicycles ridden as part of an authorized program)
- Stunt or trick riding is prohibited on any part of the CVETC Campus unless part of an authorized program and facility venue.
- In the event of a collision on CVEATC campus involving a rider and a pedestrian, golf cart, vehicle or another rider, the involved parties must immediately stop to check for injuries. Collisions shall be reported to Security by calling 619.482.6114. Riders, drivers and others involved in collisions must abide by California law in terms of exchanging information and reporting to authorities.
- **Riding is allowed on the Olympic Path, but it must also be done with regard for other users (children and elderly use the Path regularly). Riders must also be mindful that the Path is made of interlocking bricks and therefore its uneven surface may cause a crash and serious injury!**
- Some aspects of this policy may not apply to guests who require manual or powered mobility devices to access the CVEATC site.

Riding and driving responsibly on the CVEATC campus are requirements for everyone without exception. Violation of these rules may result in the suspension of your privilege to ride or drive on campus.

CVEATC Village, Sports Medicine and Dining Areas. No riding is allowed within the red outlined areas!
